

# Starting as an Entrepreneur

This Is How It Works

---

## Do you dream of running your own business?

As a HANA franchisee, you're taking a big step: becoming an independent entrepreneur. That may sound daunting — and in some ways, it is. But it doesn't have to be complicated. Van 't Hul helps you set up everything properly from day one. Together, we'll make sure you get off to a flying start — with clarity, structure, and smart choices.

## What do you need to arrange?

- 1 Register with the Chamber of Commerce (KvK)**  
Choose your legal form based on liability, taxes, and growth. We advise you personally.
- 2 Open a business bank account**  
Required for bookkeeping. We recommend Rabobank or ING and help with the application.
- 3 Choosing the right legal structure**  
Sole proprietorship, partnership, or BV. We help you decide.

## Which legal form suits you?

### Sole proprietorship

- ✓ Quickly arranged
- ✓ Low costs
- ✓ You pay income tax on your profit
- ✗ You are personally liable for debts

### General Partnership (VOF)

- ✓ You are doing business together with a partner
- ✓ Each partner contributes money, time or knowledge
- ✓ Tax on your share in the profit
- ✗ Privately liable, also for each other

### Private Limited Company (BV)

- ✓ You are not personally liable
- ✓ Suitable for higher profit (> € 100,000)
- ✓ You receive salary and dividend
- ✗ Higher costs and more administration

*"We will explain to you which legal form best suits your situation and ambitions."*

## Van 't Hul also arranges:

- Full setup of your bookkeeping
- Use of the Exact Online app
- Digital dashboards for insight into sales and costs
- Quarterly reports and VAT returns
- Free support and advice
